

FOR IMMEDIATE RELEASE:

VIRIDIAN GREEN LASER SIGHTS RELEASES WORLD'S FIRST SUBCOMPACT GREEN LASER AND LIGHT COMBO

Minneapolis, MN—1/26/10 Viridian Green Laser Sight has recently launched the much requested and anticipated C5L. The C5L's release is significant as it is the world's first and only subcompact green laser and light combo. The unit features a 5mW daytime visible green laser and potent 100 lumen tactical light in a remarkably small package.

Recognizing a strong need for a concealable green laser and light combo, Viridian Green Laser Sight's engineers were able to take the best characteristics of both aluminum and polymer and combine them into an extremely strong yet lightweight and compact unit. The C5L is small in size only. The intuitive mounting system lets you easily switch out rail sets to allow limitless mounting options on virtually any railed gun. The Viridian C5L is packed with features and is sure to become a must have for those who take their personal and family protection seriously.

A full line of high quality Kydex holsters will be available soon. These holsters will be designed to fit most popular Viridian-equipped hand guns currently on the market, including C5L-equipped subcompact pistols which will appeal to concealed carry customers. The C5L is expected to begin shipping to dealers in the first quarter of 2010.

ABOUT VIRIDIAN GREEN LASER SIGHTS

Viridian Green Laser Sights is the nation's fastest growing laser sight manufacturer. Headquartered in Minneapolis, Minnesota, Viridian Green Laser Sights is devoted to utilizing cutting edge laser technology to offer compact, powerful, green lasers, for military, law enforcement, and civilian usage. While not the original developer of green laser technology, Viridian Green Laser Sights was the first company to offer a compact green laser sight for use on pistols. Viridian Green Laser Sights, and its patent pending technology, make them the world's leading green laser sight manufacturer. The company prides itself on offering the brightest and highest quality laser sights available. Viridian Green Laser Sights are designed and built in the USA.
