

# "The BEST accessory I have EVER owned."

J.H. Jacksonville, FL Viridian MP Owner

VIRIDIAN GREEN LASER SIGHTS are fast becoming the most popular laser sights on the market. Green lasers are much more VISIBLE, allowing for use anytime, day or night, indoors or outdoors... permitting you to track your target quicker and more accurately.

The word is out... this product has been selling, with impressive reviews. Viridian green laser sights are many times BRIGHTER, many times more EFFECTIVE and many times more DESIRABLE to the consumer. Amazingly, our pricing structure is at or below many competing red laser products.

Accessories are the category in which dealers enjoy the greatest profits. Why not double or triple the PROFITS earned on the sale of each pistol? By including a Viridian with the sale of your most popular handguns- you can!

Place an order with your distributor today or call 1-800-990-9390 to receive a free DVD and learn more about the Viridian line of green laser sights.
